At Wireworks we don't just design a product, we create the whole experience, hands-on end to end. There's a craft element in everything we do – from the person shaping and forming each piece during production, to how it feels when you use it.

Founded in London in 1988, our first designs were made from wire. Today we work in sustainable FSC and FSI sourced hardwoods. We also work in bamboo from the Anji mountains in China.

You'll find us in many places and spaces. On a hotel room dressing table or at the bar in a restaurant. We might be the cabinet on your bathroom wall, the coffee table in front of your sofa or a pepper grinder on your dining table.

Wireworks for Bath, Living and Kitchen is stocked by retailers internationally. We also work with own brands, hotels, architects and specifiers.
